NEW YORK, June 3.-2 p. m.-The | TODAY'S PRICES ON market steadied at the higher level just after the noon hour. Some of the issues which had advanced most rapidly dur-(Qrotations furnished by W. B. Hibbs & Co., bankers and brokers, Hibbs Building, members New York Stock Exchange, Washington Stock Exchange, and Chicago Board ing the morning suffered reactions of about one point. Business became less active and trading was largely made up of commission house orders which came in from all wires. It is evident that dealers in stocks outside of New York have faith in the bull market and are ready to put cash into it.

The rise of the morning having nothing feverish about it may be looked upon as a healthy rebound from the dullness which characterized conditions over the holiday period. The leading stocks are from one to three points higher than they were yesterday, and the trading today has been so well dis-tributed that the situation is more hopeful than has been the case for several

During the morning's trading the New York stock market has been literally on the jump. Railroads and industrials have vied with one another in the rise and the situation at this hour is that of a strong bull market moving upward with slow and irresistible force. Yesterday's trading was in narrow volume; today the gates are wide open and everybody is buying at fancy prices. Yesterday business was concentrated in Steel common, today it is widely dis-tributed and half a score of stocks are

At the opening almost everything moved up from one-fourth to a point, and in the early trading made more pronounced gains. Great Northern Ore, opening at 74%, had gained more than two points before the noon hour. Pennsy had scored a point. St. Paul, opening at 153% and lapsing back to 153, had gone up to 154. Reading lost half a point in the early trading and got it back again before noon.

othern Pacific was the most active Southern Pacific was the most active of all. Opening at 124½ it sold up rapidly to 129 and then lapsed back to 128 on profit taking by yesterday's buyers. Steel gained a point, and the preferred shares two points on the bulge. Union Pacific opening at 191½ lost a point soon afterward and then quickly sold up to 1921½.

afterward and then quickly sold up to 18312.

And so the market reads up and down the list. A few stocks are weak and neglected, but the most of them are active and gainline fractions on successive bids. Smelters was one of the weak stocks at the opening and was neglected in the later trading, but had gained a point at noon.

The movement of stocks today has been anticipated for a week or more, and is looked upon as the natural outgrowth of conditions which have been gathering force for several days for the upward swing of prices. The best observers here are not expressing extravagant opinions about the extent of the rise, but are watching it with the keenest interest. They would not be surprised if prices ran up five to tenpoints before the reaction sets in, and they would not much wonder if the advance did not last through the day.

THE CURB MARKET.

EDUCATION KEYNOTE OF WILSON'S TALK

Secretary Speaks for Farmers at Canadian College Exer-

cises.

MONTREAL, Canada, June 3 .- "The farmer's daughter should be educated to adorn the parlor, advise in the

the kitchen, and know herself."

This was one of the homely little maxims with which Secretary Wilson of the Agricultural Department regaled a large audience assembled at St. Anne de Bellevue today, on the occasion of the dedication of Mac-Donald College of McGill University. The Secretary and United States Chief Forester Gifford Pinchot were given the honorary degrees of LL. D. by

the honorary degrees of LL. D. by the university.

Secretary Wilson spoke from the viewpoint of the farmer. "We encourage to the utmost," he said, "the workers of the factory, the forest, the mine, and in commerce, causing a movement from the farm that results in limited food and high prices. Population outgrows production of food supplies, resulting in high prices. "Half the people under your flag and curs till the soil for a livelihood, he continued. "They are not the governing class in either country, while they hold the balance of power at the ballot box."

CARDINAL KOPP BETTER.

BRESLAU, Germany, June 3.—An improvement is recorded in the condition of Cardinal Kopp, Bishop of Breslau, who has been at the point of death for a week past,

New York Central System Greatly Increased Business During May.

> NEW YORK, June 3.-As a result of the meeting of the New York Central lines' executive committee, it is known today that the officials of that road are convinced that prosperous condi tions have come to stay. Reports for last month show that every part of the system enjoyed increased business.
>
> There was no meeting of the direct

tors as scheduled owing to the lack of a quorum, but the directors of the New York, Chicago and St. Louis railroad met and re-elected the retirng officers of that company. President Canniff, of that road, who came here from Cleveland, was most optimistic regarding conditions along his line.

President Brown, of the Central, who has just returned from the West, dog clared ail his advices indicated greatly improved conditions.

"Financially, we have never been in better shape. What requirements are in authorized stock issues or bonds," he

Announcement of the regular dividends will be handed down at next Wednesday's meeting. President Brown made public the following statement, showing movements of loaded cars in May over one year ago:

New York Central, increased 76,890;
Boston and Albany, increased 16,222;
Rutland railway, increased 180; Lake Shore, increased 70,471; Eig Four, increased 37,791; Michigan Central, increased 37,791; Michigan Central, increased 75,331; Chicago, Indiana and Southern, increased 5,479; Indiana Harbor Belt line, increased 43,871.
